Pete and CJ,

1. Would you kindly explain to the candidates (and the membership) what the “unforeseen events” are that are causing the delay in the election, as well as when you anticipate the election period to be held?

2. Prior to the election, please assure the membership that the **voting will be impartial, open, and fair**, and that no candidates (not even any officers) will have access to the details of which members voted, or for whom they voted. This is critical, as several members have already expressed a reluctance to vote if the officers are able to see how they voted.

3. Should you choose a voting forum other than the ICS website, **please inform the candidates the details in advance** of the announcement of the voting period, so that we may have the opportunity to ascertain and verify the integrity, robustness, and fairness of the voting process. Also, please advise **who will be the impartial party that will oversee** the election process.

Please be assured that, as always, my motivation is solely to insure a fair, open, and integral election for the entire membership and for all the candidates.

Av
