Okay, I went through this and made a few changes for clarity. I also reformatted it by adding section headers, making the font consistent, and reducing white space.

Bill and CJ, look over the sections identified as yours to be sure I got what you meant to say.

Note that, as has been my practice, I made the email addresses at the end somewhat immune to webBots by putting a space ahead of the @-sign. Prevents junk mail.

I think it is ready to go. Don't forget to PDF it! Over all, a great collaborative effort. What a team!

Pete

Made a couple of corrections marked in ~~red and strike through~~

Also made font more uniform.
